

CHANTAL LINE CARPENTIER

Head of Trade & Environment Program

NAFTA Commission for Environmental Cooperation

Dr. Chantal Line Carpentier was promoted Head of the Trade and Environment Program of the NAFTA Commission for Environmental Cooperation in 2002 after two years as project manager. Previously, she worked for two years at the Wallace Institute for Alternative Agriculture and the International Food Policy Research Institute as well as consulting for the UNDP, World Bank, and OCDE. She holds a Ph.D. degree from Virginia Tech and B.S. and M.S. degrees from McGill University in Agricultural as well as Environmental and Natural Resources Economics. In 2006, she was selected to participate in the Yale World Fellows program, which aims to establish a worldwide network of leaders and foster better international relations. Dr. Carpentier regularly publishes journal articles and book chapters on the intricate relations between economics, trade, the environment and policy with the most recent article being "The NAFTA Commission for Environmental Cooperation: Ongoing assessment of trade liberalization in North America", *Impact Assessment & Project Appraisal* Special issue on impact assessment of trade-related policies and agreements 24 (4), 2006: 259-272; with 2005; K. Gallagher and S. Vaughan. "Environmental Goods and Services and the World Trade Organization". *Journal of Environment and Development* 14(2):1-27; with S. Vaughan, Z. Patterson et P. Miller. "Canada-US Electricity Trade and The Climate Agenda", dans B. Doern (ed). *Canadian Energy Policy and the Struggle for Sustainable Development*. Toronto, The University of Toronto Press, 2005; "Los impactos de la liberalización del comercio en la agricultura: predicciones y realidades", in Muñoz Piña et al. (eds). *Comercio y medio ambiente*, Compiladores. México, D.F.: Instituto Nacional de Ecología, 2004, p.19-50.

Additional material

Her work and scientific interests focus on assessing the environmental impacts of economic growth and trade liberalization; promoting greener trade by developing market-based mechanism for sustainable use of biodiversity and natural resources, renewable energy, sustainable agriculture and forestry, and facilitating green procurement. She also works with the private financial services sector on strengthening links between investment and the environment and the private sector generally to green the supply chain. She sits or serves as chair on many advisory bodies, and has extensive public speaking and media experience.
